### Message from the Pro!

GIMMES - A gimme is a short putt conceded by an opponent because it is deemed unmissable. It is still counted as a shot but the player does not actually go through the motions of playing it.

A person may give their opponent a gimme in match play however, **they are not permitted in any other competitive format.** This includes medal (stroke) play, stableford competition or any other format in which a player's handicap is calculated.

So, moving forward please make sure you finish the hole, failure to do so will result in disqualification.

Thank you for understanding.

**MEETING ON TH 13<sup>TH</sup> FEBRUARY 2025 @ 7PM.**

" With the wind picking up over the last few months, it has placed even more importance on chipping as we will always tend to miss a few more greens in windy conditions. The ability to chip well will help us save quite a few shots during the round.

**Some chipping tips for you to try:**

- Forward shaft lean boosts compression and gets the ball airborne. Keep weight more left sided, this will help with the shaft lean and help with the strike.
- Soft hands increase feel, feedback, and control
- Open the clubface to achieve a smoother glide across the turf, and use the bounce on your wedges. (harder/tighter lies keep face more square)

- Play around with your ball position, backfoot for chips coming out a little lower and with more run on the ball. Front foot for chip shots you want coming out a little higher and landing a little softer.
- Feet closer together and slightly open stance (feet pointing left of target)
- Wrist action has to happen in the chip shot. Golfers love to tell each other to keep their wrists quiet, but there are specific patterns that professionals have, and we should be following these more closely.

I hope some of these chipping tips help you over the weekend and if you are unsure of how to apply some of this, I will be making a short video next week to demonstrate how to do it.

Have a great golfing weekend! " Dwayne Basson KRGC's PGA Pro.
